Farther projections for smaller spaces

### **Why a Criss-Cross Arm Awning?**

If your mounting space is narrow, yet deep, and you want to optimize shade coverage, you can use our Criss-Cross awning frame. This innovative frame, has offset shoulder heights allowing one awning arm to fold under its companion arm. This results in an awning projection which is greater than its width.

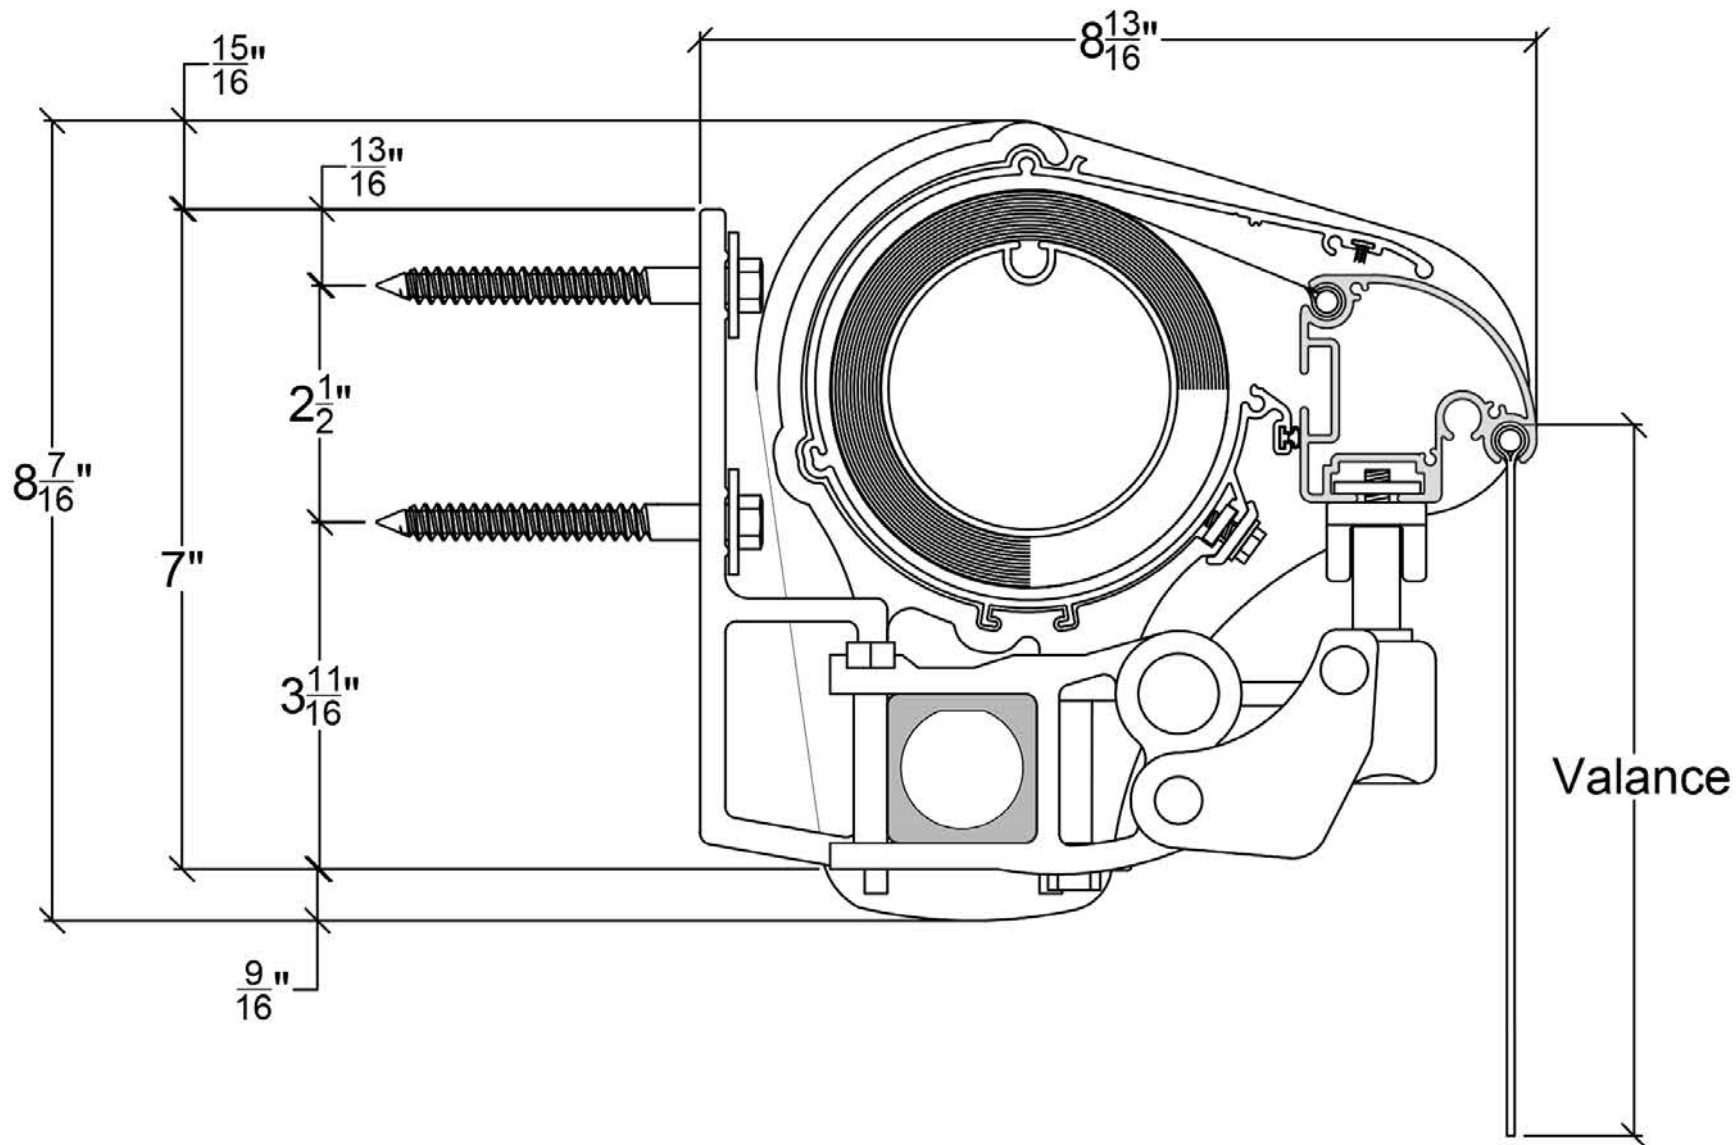

- Arm Projections: 6', 8', 10', 12', 13', 14'
- Hood Cover Optional
- Valance Optional
- Can add Motorized or Manual Drop Screen
- Can be Roof Mounted

## **97 PRO SEMI-CASSETTE**

The Semi-Cassette covers not only the top and sides of the fabric roll but also the back. This ensures that your beautiful fabric is completely protected when retracted, giving it a longer life with a color that lasts for years to come. The cassette's sides have a sleek, aerodynamic design that conveys luxury and sophistication, making it a perfect accent to your home's exterior. This awning is designed for both wall and roof mount applications.

- Arm Projections: 5'-9", 6'-11", 8'-6", 10'-2", 11'-8", 13'-2"
- Valance Optional
- Can add Motorized or Manual Drop Screen
- Can be Roof Mounted

## Multi-pitch Frame option Why the MARCESA

- Has a center beam stabilizer bar that runs length wise giving a “Hip Roof” shape when extended
- Ideal for West facing exposure
- Improved wind resistance
- Increased head room

**MARCESA OPTION AVAILABLE ON  
THE FOLLOWING AWNING FRAMES  
ROYAL EMPRESS CLASSIC**

**marcesa™**

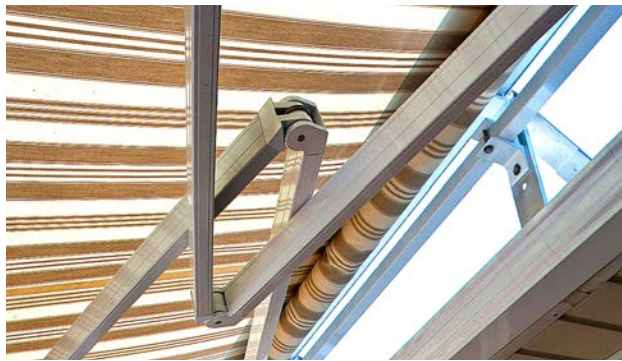

**FRAME COLORS**

**Black, Espresso, Almond, Sand, White**

Color options may vary according to awning model

All powder coatings and applications are not created equal. Pretreatment and powder coated finish exceeds AAMA 2604 specifications including 3,000 hour salt spray testing. This super durable finish includes UV inhibitors to produce a fade resistant finish. Our finish is low gloss and lightly textured adding an upscale look that discerning buyers expect on high performance products.

**CRISS-CROSS WHEN PROJECTION EXCEEDS WIDTH**

**Why a Criss-Cross Arm Awning?**

If your mounting space is narrow, yet deep, and you want to optimize shade coverage, you can use our Criss-Cross awning frame. This innovative frame, has offset shoulder heights allowing one awning arm to fold under its companion arm. This results in an awning projection which is greater than its width.

**DROP-DOWN VALANCE**

The sunset solution. This upgrade can add impressive sun control to your awning. Enjoying yourself on the deck usually happens while you are seated. Depending on the position of the sun, and the time of day, this can mean you are back in the sun. Adding this Drop- Down Valance is the solution, especially for due west exposures.

**THE MARCESA OPTION**

**Why the Marcesa?**

- Has a center beam stabilizer bar that runs length wise giving a “Hip Roof” shape when extended
- Ideal for West facing exposure
- Improved wind resistance
- Increased head room

**MARCESA OPTION AVAILABLE ON THE FOLLOWING AWNING FRAMES**  
**ROYAL EMPRESS CLASSIC**

**MOTORIZE YOUR AWNING**

Motorize your lateral-arm awning with a top of the line SOMFY® motor. Wireless controls add convenience. You can even control your awning from your smart phone or device with a Somfy™ ToHoma. Manual override hardware is standard with our motor operated awnings.

**ROOF MOUNT WHEN NEEDED**

Low head room, or low ceilings are no issue when you consider the roof mount option. We take great care when designing roof mount solutions. Our adjustable pitch roof brackets anchor to your roof structure with stainless steel hardware. Carefully installed to prevent any water leakage.
